FLATWEAVES

BY HOKANSON

FLATWEAVES

The influence of organic elements has become more prevalent in space design. Materials that are cultivated naturally can be more durable and potentially more environmentally responsible. Most importantly, they have the ability to enhance our quality of life, productivity and overall well-being.

Made to order in any custom color, flatweaves are a perfect way to integrate a dose of nature into any space – modern or traditional. Using 100% pure wool, handwoven techniques, and classic patterns, our flatweave rugs are derived from an old world woven aesthetic and exude a sense of warmth, originality and harmony. These utilitarian and intricate pieces speak to a nature meets man-made aesthetic.

VISUALLY INTERESTING

Because flatweaves are lighter in weight, they're not only easier to move and manipulate but also act as a textural piece of art for your floor – a perfect way to add visual interest to an interior.

Shown left and right: Score - Steel (5'x8' rug)

DURABLE & BEAUTIFUL

With no pile, and a blanket of tightly woven fibers, flatweaves are highly durable and ideal for heavy foot traffic. Beautiful yet resilient to the wear and tear of real life.

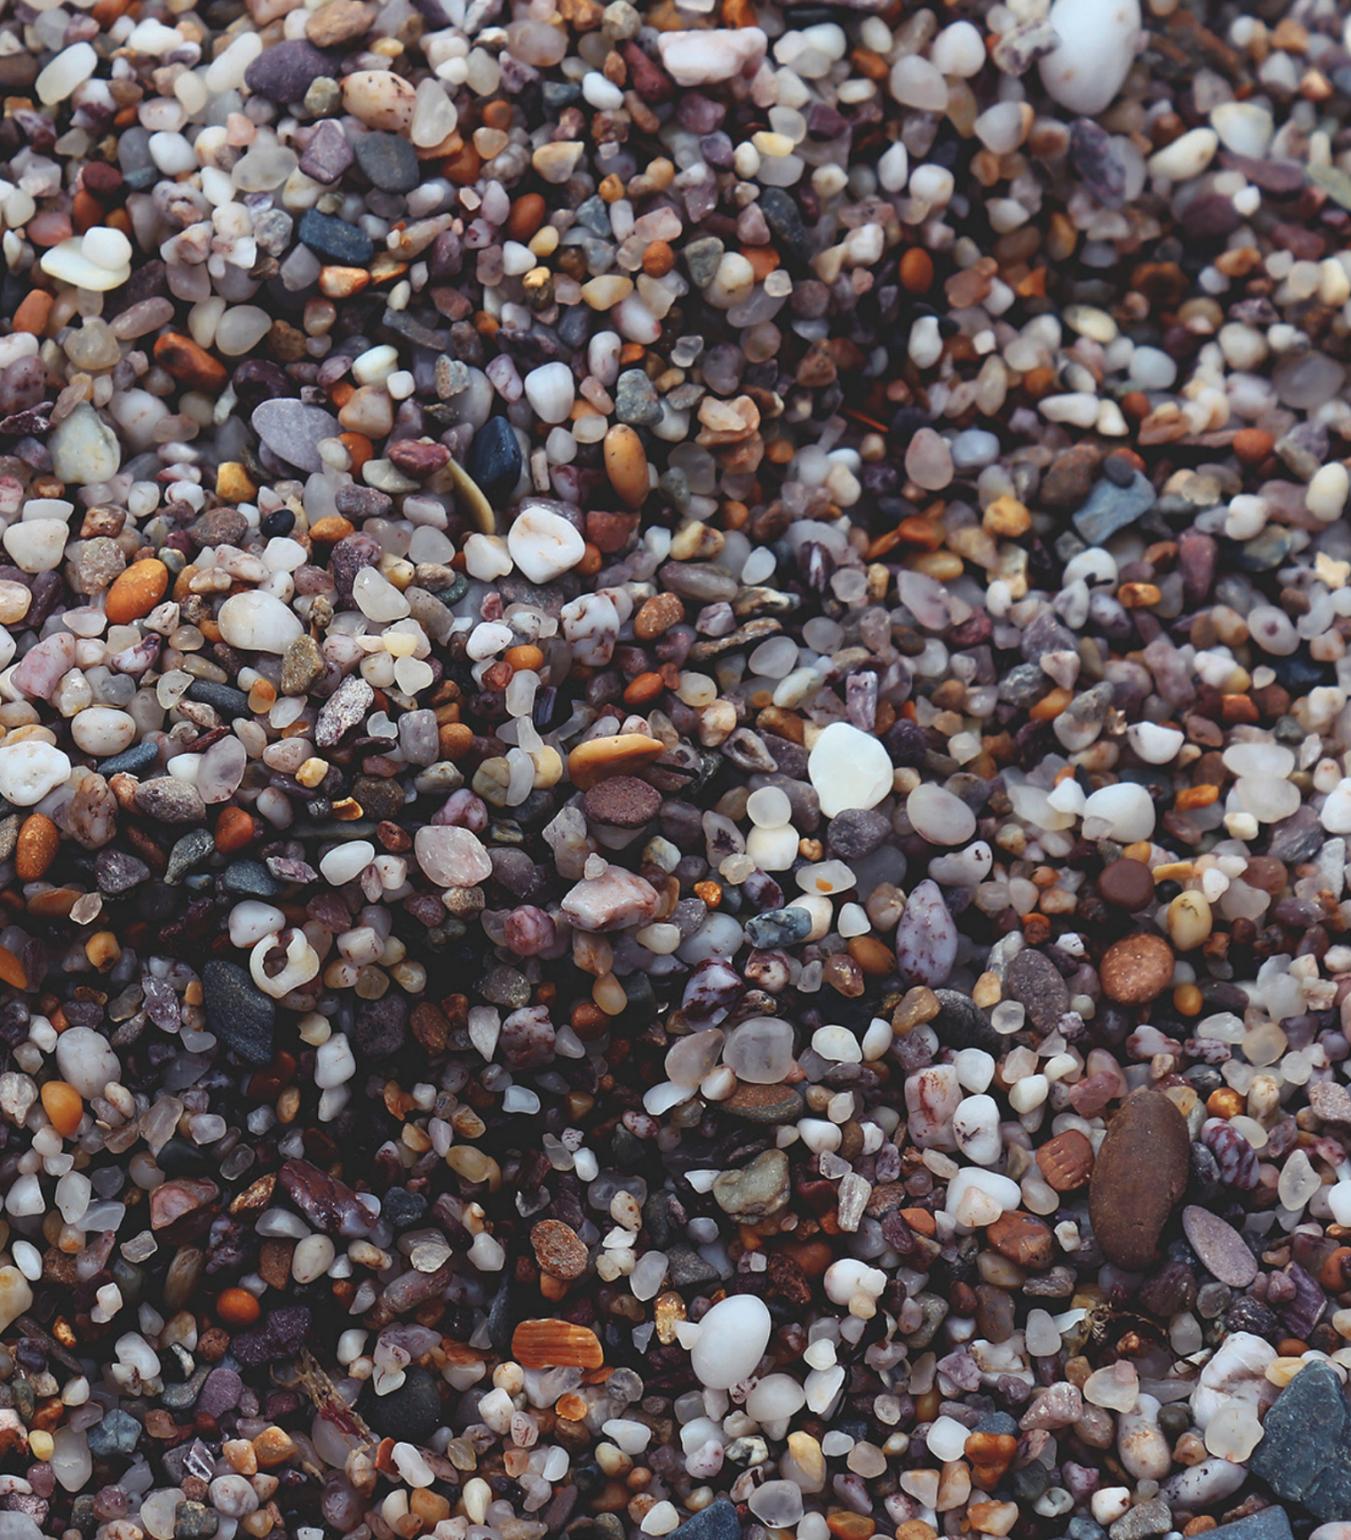

*Shown right (clockwise from top to bottom):
Hatch - Onyx, Score - Sand, Particle - Moss*

FLEXIBLE APPLICATION

Flatweaves are traditionally known for their tribal and Middle Eastern style, giving them a rich sense of culture. Today, flatweave carpets offer modern aesthetics and unique style that enhance the most contemporary spaces.

*Shown left: Kiln - Mushroom (5'x8' rug)
Shown right: Kiln - Mushroom, Kiln - Clay*

FIBER BENEFITS

Using wool, cotton, or a blend of both, the materials used to produce flatweaves come with an array of benefits. While both fibers are renewable, wool is also durable, hygienic and non-allergenic. Cotton is soft, strong, and retains colors well, making patterns more lively and vibrant.

*Shown right (left to right):
Graze - Cobalt, Spackle*

REVERSE EFFECT

Flatweaves provide a unique flexibility of reversibility. Enjoy a slightly different effect anytime you desire by just flipping your flatweave over.

*Shown left (clockwise from bottom right):
Score - Onyx, Graze - Cobalt,
Kiln - Clay, Hatch - Terracotta*

A FRACTION OF THE WAIT

Similar in appearance to hand knotted rugs, these artisan pieces require much less time to produce. With significantly shorter lead-times than hand knotted, get all the beauty and resilience of these bespoke flatweave rugs with a fraction of the wait.
